3D RENDERS CHECKLIST

Your Guide To Creating The Perfect Render With BoxBrownie.com

At **BoxBrownie.com**, we are committed to creating stunning, high-quality Renders tailored to your unique vision. To ensure we deliver a product that meets your expectations, we require detailed architectural plans — including floor plans and elevations — in DWG, PDF, or image file formats (please note that additional charges apply for renders created from PDFs or image-based files).

Let us know your desired style, including finishes, fixtures, and furniture, and be as specific as possible about textures and colors, referencing where these should be applied. Providing a mood board or similar references can greatly assist in achieving your vision. If your project requires landscaping tailored to a specific location, please supply reference images and detailed instructions to help us capture the setting accurately. Additionally, any supporting materials, such as photos or web links showcasing the requested features, will help our team bring your ideas to life.

With your clear and detailed input, we'll create a world-class Render that exceeds your expectations.

① WHAT WE NEED:

Our aim is to deliver your completed project to you as fast as possible. Please provide the following information so our editors can start creating your 3D Render immediately.

- **ARCHITECTURAL DRAWINGS**
- **A DESIGN GUIDE**
- **LANDSCAPING DETAILS**
- **ADDITIONAL INFORMATION**

② STEPS TO GET STARTED

Log in to your BoxBrownie.com Members Dashboard and follow these simple steps to submit your job:

STEP 1

Name your project and select what type of Render and how many edits you would like.

STEP 2

Select your preferred Render styles and add any additional information.

STEP 3

Upload your files.

③ FREQUENTLY ASKED QUESTIONS

HOW LONG WILL IT TAKE TO CREATE MY RENDER?

A single Render takes 2 weeks to create and involves 4 stages. Please note the turnaround time may vary based on several factors, including the complexity of the render, the number of renders requested, and your response time for feedback or approvals.

WHAT ARE THE STAGES OF THE CREATION?

THE 4 STAGES OF RENDER CREATION ARE:

Clay: To show the structure and camera angle.

Color: To show the texture and colors.

Final: For review and feedback before the final step.

High-Res: The final high-resolution Render.
